## Commercial Hotel

MRS. P. M. JARAMILLO, Prop's.  
**ROOMS by the DAY, WEEK,  
or MONTH.**  
**First Class Accommodations.**

Roy, N. M., July 21—A bitter  
range war is threatened in this  
part of Mora county as the result  
of depredations by stock on the  
lands of the farmers who are  
financially unable this year to  
fence their claims. The cattlemen  
refuse to fence and many of  
the homesteaders have been com-  
pelled to stand guard day and  
night over their crops to save  
them from destruction. Repeated  
appeals to the cattle raisers to  
herd their stock have been met  
with the statement that there is  
no efficient herd law in the terri-  
tory and if the homesteaders wish  
to save their crops from the range  
cattle they must fence their  
holdings. The homesteaders claim  
that on account of the severe  
drouth in the past year they have  
no money to build fences. Exas-  
perated beyond endurance by the  
futility of resorting to law the  
farmers have organized a  
protective league and threaten if  
relief is not afforded them to  
employ drastic measures for their  
protection. A petition setting  
forth the state of affairs and  
asking for assistance has already  
been transmitted to the secretary  
of the interior.

Several head of stock have  
already been killed as a result of  
the trouble with the cattle. The  
stock owners unquestionably  
within the law in allowing their  
animals to range free are indig-  
nant and declare they will demand  
a reckoning. The Roy Land and  
Livestock company, one of the  
biggest cattle outfits in this sec-  
tion, have adopted the only present  
practicable solution of the prob-  
lem by spending several thou-  
sand dollars in fencing their land.

This example, however, has  
been followed by few and bloody  
reprisals are feared if the trouble  
is not soon adjusted.—Albuquerque  
Journal.

**Manzan Pile Remedy**  
**RELIEVES WHEN OTHERS FAIL**  
For sale by the Sunnyside Drug Co

**SIZE OF BUT LITTLE MOMENT**  
The Most Deadly and Destructive Foes  
of Mankind Are of Minute Pro-  
portion.

In one of Herbert Wells' brilliant  
stories the terribly scientific and  
practically invincible Martians who  
have invaded the earth and conquered  
England are stopped in the midst of  
their victories and utterly destroyed  
by the attacks of microscopic foes.  
Infinitely small organisms, germs of  
diseases to which man has become in  
some degree immune, slay the won-  
derful warriors of a planet never  
invaded by these earth foes. What the  
greatest battleships and the heaviest  
guns could not do the unseen and  
unknown living seeds of death ac-  
complish.

More clearly every day the world  
understands that in the life and af-  
fairs of mankind the most deadly  
and destructive foes are extremely  
small. All of the fierce mammals and  
poisonous serpents of Africa do not  
kill as many human beings in ten  
years as the tsetse fly slays in one.  
The tigers and cobras of India kill  
their thousands every year, but the  
rats which spread the germs of the  
bubonic plague destroy their tens of  
thousands. In this country the com-  
mon house fly undoubtedly causes  
more deaths than all the venomous  
snakes, wild beasts, mad dogs, run-  
away horses and all-tempered bulls,  
ten times over. The actual propor-  
tion is probably much higher than ten  
to one.

A new terror is making its ap-  
pearance in eastern New Mexico  
if the exchanges from that part  
of the Territory are to be believ-  
ed. It is Johnson grass, and in  
Quay county, Anti Johnson Grass  
Societies are being organized. A  
few of the farmers have deter-  
mined to plant the grass but the  
rest of the population is dead set  
against the proposition and de-  
clares that should the grass get  
started it will run out the home-  
steaders, for farming is imprac-  
ticable where Johnson grass grows.  
The new forage plant must be  
something even more terrible  
than the Standard Oil trust, very  
likely the correct one.

Industrial Courses (four years) in Agriculture, Practical Mechanics, Business  
and Domestic Science, for boys and girls who do not expect to take a college course.  
Open to students who have completed the eighth grade in the common schools.  
Stenography and Spanish Stenography (one or two years).  
Eleven buildings. Splendid Equipment. Best library in the Territory. Faculty of thirty-eight.  
Comfortable dormitories. Expenses low. Unusual opportunities for self-support.  
Write for Catalogue Address the President  
W. E. GARRISON AGRICULTURAL COLLEGE, N. MEX.

# Irrigated Building Lots

Two Blocks Only -- For Sixty Days -- Lots 25 x 180 Feet -- \$50,00 Per Lot  
TERMS: \$25,00 Cash Balance In Three Months

Two blocks, under the canal, just south of T. S. Hall's residence, have been selected for immediate improve-  
ment. We will begin work shortly on two bungalows, plans of which may be seen at D. J. McCanne's cottage,  
and the lots are bound, in the very nature of things to increase in value.

Go and look at the location—the blocks are marked with signs. It is an ideal place to build a home, right  
under the cottonwoods, all perfectly irrigated and both blocks corner on Sumner Park which will be improved  
this Fall and forested next Spring at no expense to lot holders. We will set out trees along every street—your  
lot will be improved.

These are positively the only two blocks of like value that will be offered at such a low price and this will be  
withdrawn in sixty days.

This offer is to local people only.  
Buy Now while lots are cheap—Build Now while labor is cheap.

**THE FORT SUMNER TOWNSITE CO,**  
**L. C. VanHECKE, Manager,**  
**D. J. McCanne's Cottage.**

J. A. Northington, our popular tin-  
ner, is "going some," he has just com-  
pleted the big dipping tank for J. E.  
Brown, put the finishing touches on W.  
G. McCanne's wind mill and turned  
out several hundred feet of well casing  
this week.

**When Youth Wanes.**  
Old age has many definitions, and  
middle age more. But you may take  
it that you are not really an old man  
so long as you take an interest in  
your personal appearance. There is  
not a nurse who does not know the  
sign of convalescence—when the pa-  
tient wants to be shaved and put a  
good appearance in this world. And  
so long as the man of 60 can take an  
interest in the latest tie—and tie it—  
he is preserving his youth.

Mrs. M. Philion has rented the rooms  
over the First National Bank and will  
furnish them in a first class manner.

Mrs. R. Beaubien has her large  
adobe, two story hotel building nearly  
completed.

Miss Severie Hanson of Ricardo,  
paid Fort Sumner a business visit on  
Thursday.

Dr. W. R. Franklin of Rockford, Ill.,  
came in Thursday evening to look after  
his farming interests under the ditch.

When you see an X opposite your  
name you may know that your sub-  
scription has expired and that you owe  
for the Review.

Don Pelagio Casaus has finished  
shipping his 40,000 pound wool clip.

Miss Luz Abreu, of Old Fort Sumner,  
was visiting friends here Thursday.

A La Lande business man wrote one  
of our local merchants and facetiously  
added "Holy City" to his address.  
Sh-h-h! Don't tell Judge McGill.

Roy Showalter had a little accident  
Tuesday that only by the greatest of  
good luck was turned into a comedy.  
While dising on the Haelterman place  
south of town, he leaned over forward,  
to kick a big chunk of sod down, lost  
his balance and fell in front of the  
disc. As the horses were pretty tired  
they stopped at his first "whee," but  
not until he had been wedged in be-  
tween the discs by one leg, tight and  
nast. He yelled for his partner, Jones,  
who came on the jump, but couldn't  
get him out until he had dug a hole for  
him. Jones wants to know now, a big  
tiff, of Roy's size could get that far  
under a disc and only get "skinned."

E. Steelkel is again in our midst after  
a sashy through the west with a  
wild-west show. Judging from the  
sombro, red shirt, hose-jar and  
leather watch chains, etc., it was sure  
a wild and wooly bunch he was with;  
if Steelkel had only added a pair of spurs  
and woolly schaps he would have been  
sight for the ladies.

Dr. Strayhorn and Judge McGill of  
La Lande were visitors to our city from  
the seat of education on Wednesday.

W. G. Swisher, Claim Agent and  
Dr. D. R. Fly, Surgeon, both of the  
A. T. & S. F. Ry Co. at Amarillo,  
Tex., were in the city this week look-  
ing after the interests of the railway.

Dr. L. D. Bruton, of Hartville, Mo.,  
is looking over our county with a view  
of locating. He is a pleasant gentle-  
man and comes highly recommended.  
We need more of his kind.

Goldina Hunter, aged six months and  
one day, daughter of Mr. and Mrs.  
W. M. Hunter died on the evening of  
July 20th, of cholera infantum. Inter-  
ment was at Los Ojitos on Wednesday  
afternoon.

The bereaved parents have the  
sympathy of the entire community.

There is considerable apprehension  
that we will have an epidemic of ty-  
phoid, but we appear to be helpless as  
there are a large number of our people  
people who oppose incorporation,  
and we do not appear to have any  
other means at hand to force people to  
clean up. It was ever thus. What is  
everybody's business is never attended to.  
The sanitary conditions prevailing  
are truly alarming.

The Review would like to hear from  
some of our friends opposing incorpo-  
ration, upon the subject of meeting  
this problem; for meet it we must.

Who will take the lead, will it be an  
anti-incorporation man; are they the  
kind of good citizens looking to the  
best interests of the town.

ManZin is good for any kind of Piles.  
It stops inflammation, creates a  
normal circulation, thus reducing the  
Piles, and heals the parts affected.  
ManZin may be conveniently and easily  
applied, as the tube in which it is put  
up has a small patent, nozzle attached.  
Sold by Sunnyside Drug Co.

Governor Curry today appointed Ran-  
dolfo Aragon or Anton Chico, to be  
county commissioner for the third  
district of Guadalupe county, in place  
of Cecilio Castillo who died recently.—  
Santa Fe New Mexican.

There has been considerable talk  
among our merchants regarding the  
organization of a Fort Sumner Com-  
mercial Club, as suggested in the  
Review last week. This is of great  
importance to any new and growing  
community and some action should  
be taken immediately. Such an associa-  
tion can do a great amount of good in  
that it furnishes us with a permanent  
committee to consider propositions as  
they arise. It will also tend to sys-  
temize our boosting and will aid the  
new comer or the interested outsider  
in securing accurate information re-  
garding the Sumner's resources and  
opportunities. Let some definite action  
be taken quickly.

## The Santa Fe New Mexican

The oldest Daily in the South-  
west. \$1.75 per quarter year.

ESTRAY male taken up—1 male, six  
years old, branded L on left shoulder,  
OO on left side of neck. Come and get  
your mule, pay for keep and add.  
Leandro Casaus,  
Guadalupe, N. M.

**Notice**  
Persons taking lots on the Govern-  
ment Townsite are notified that fencing  
their lots does not comply with Rule 5,  
besides they are running the chance of  
having to pay damages if stock should  
be cut on the wire.

C. W. Foar,  
Sec'y Board of Control.

**Confidence of Genius.**  
"You say your dirigible balloon is  
a success?"  
"Yes," answered the inventor.  
"But it came down to the earth with  
a terrible bump."  
"True. But it hit very close to the  
spot I was aiming at."
